Product ID: VEPROZONE - Prozone Unit

In nature ozone is produced by the action of high energy discharges in lightening on oxygen in the atmosphere.

Prozone recreates this natural process. The ozone produced destroys harmful micro-organisms with which it comes into contact and breaks down malodour causing compounds neutralizing the unpleasant smells they produce.

Because ozone is a gas it penetrates to even the most inaccessible locations.

The process leaves no chemical residue, all 'unused' ozone reverts to oxygen within a short time.

Features:

- Neutral white ABS casing (compatible with any décor)
- LED confirms power on
- Adjustable ozone production to match room size
- LED confirms rate of ozone production
- Programmable ozone production - Day/Night/24hrs
- Casseted design for ease of installation and servicing
- Modular design for 'no tools required' servicing
- Suitable for fixed installation or portable applications

Specifications:

- 230mm(h) x 161mm(w) x 100mm(d)
- Flame-retardant ABS
- 220V-240V/110V
- 12 watts
- 20mg/h (low)
- 10mg/h (med)
- 40mg/h (high)
- Up to 100 cubic metres
- BS EN 60335-1

BS EN 60335-2
EMC Directive 89/336/EEC
