Instanta CT300 Professional Water Boiler Stainless Steel

We believe that the new CT300 is the most powerful compact boiler available. This model, perfect for a constant and steady stream of servings now has an increased initial draw off of 11 litres and ,with a tap clearance of 275mm, is ideal for those who need to fill tall pots. The new CT300 has Instanta's full digital read out which reports the boiler status and provides easy to read warnings of lime scale build up and a full diagnosis of any component problems. Thermistor controlled for constant temperatures of 98c, the boiler also features an ECO mode which allows you to switch to energy saving half capacity during quiet periods.

Easy to read digital status display. Scale warning intelligent diagnostics Compact, reliable and long lasting Energy saving ECO mode Electronically controlled for constant temperatures of 98°C Standard issue large tap Easy installation and maintenance Insulated for safety and economy Stainless steel boilers, cases and spill trays Minimal steam escape Choice of overflow connection to rear of machine or spill tray Electrical flex included 2 metre food quality hose with 3/4" BSP female connections for fitting to water supply included Five water level sensors Low voltage switching.
