Product ID: ISCT6000 - 6 - Instanta CT6000-6 Twin Tap Automatic Water Boiler (capable of 342 cups per hour)

Good Quality Product Manufactured in UK free next day delivery on orders before 2pm

Instanta CT6000-6 Twin Tap Automatic Water Boiler (capable of 342 cups per hour)

This stylish boiler is ideal where large volumes are needed in a hurry. The CT6000-6 will produce 33 litres in one go (after initial heat up) and a further 57 litres every hour. To help you serve large volumes quickly, the boiler has TWO large non drip taps. The 6000 also has Instanta's new digital display which reports the boiler's status and provides easy to read early warnings of lime scale build up and full diagnosis of any component problems. The boiler also features our new ECO mode which allows you to switch the boiler to energy saving half volume during quiet spells. Thermistor controlled for constant temperature of 98C.

Easy to read digital status display. Scale warning intelligent diagnostics Compact, reliable and long lasting Energy saving ECO mode Electronically controlled for constant temperatures of 98°C Standard issue large tap with extra tap for even speedier delivery Easy installation and maintenance Insulated for safety and economy Stainless steel boilers, cases and spill trays Minimal steam escape Choice of overflow connection to rear of machine or spill tray Electrical flex included 2 metre food quality hose with 3/4" BSP female connections for fitting to water supply included Five water level sensors Low voltage switching.
